MARKETPLACE

foraging for you

Since our very first day back in 1979,

Guido's has been bringing you the best quality locally-sourced products we can get our hands on.

The following is a list of producers and farms within a 100 mile radius whose exceptional products you'll find in our two Berkshire County stores.

When looking for a specific product, please call ahead to confirm availability as many factors such as seasonal weather conditions and unexpected production disruptions that can limit in-store supplies.

Not all products are carried in both stores.
